

# Business Architect - Controlling Service

**Location:** Brussels, Belgium

**Are you ready to take your career to the next level?**

**Do you thrive in environments that challenge and inspire you?**

**Would you like to grow within a team that values both excellence and enjoyment at work?**

## ABOUT ELMEA CONSULTING

Elmea Consulting, a brand of Taleo Consulting, is a life sciences consulting firm supporting healthcare companies from development to distribution.

## DEVELOPMENT

From proof-of-concept to licensing, we guide our clients through each stage of development, ensuring efficient, science-driven, and regulatory-compliant pathways.

## PRODUCTION

We help healthcare organizations accelerate market access while maintaining the highest standards of quality, safety, and regulatory compliance.

## What Will You Do?

At **Elmea Consulting**, we believe that advancing healthcare starts with **investing in people**. When our consultants grow, feel empowered, and are supported, they can make a real impact for our clients and, ultimately, for patients.

Our teams are made up of curious, committed, and passionate professionals who thrive in a collaborative environment. By developing their expertise and careers, they actively contribute to the success of healthcare and life sciences organizations at every stage of innovation.

Our success is built on the **talent, collaboration, and commitment** of our people and we're now looking for a **Business Architect - Controlling Service** to join our journey.

We are looking for a Senior Business Architect to support one of our clients in the energy sector. You will act as the bridge between strategic objectives and operational capabilities, focusing on the Customers, Markets and System (CMS) domain, working within the central Strategy Implementation and Transformation Office (SITO) team.

- Define the target Business Architecture of the CMS department in line with management vision and strategy
- Build and maintain Business Capability Maps to guide strategic priorities
- Identify and define Data Domains, Data Owners, and Conceptual Business Information Models
- Support the introduction of AI at the business architecture level
- Lead the definition and validation of Business Architecture Blueprints in collaboration with Domain and Solution Architects
- Ensure alignment between IT architecture, IT roadmap, and business strategy
- Contribute to the refinement of architecture methodologies, frameworks, and tools
- Facilitate cross-departmental alignment across Assets, Strategy, Infrastructure, CDO, and IT

### Required Profile

- Minimum 10 years of proven experience in business and information architecture
- Degree in civil or commercial engineering, or a Master's in a scientific discipline
- Strong knowledge of Domain Driven Design (DDD), UML, BPMN, and Archimate (mandatory)
- Experience with AI implementation at the architecture level is a strong asset
- Knowledge of the utilities/energy sector is a major advantage
- Excellent stakeholder management and communication skills
- Fluent in English; French and/or Dutch required

### Our Vision at Elmea Consulting

We aim to build a leading healthcare and life sciences consulting firm driven by expertise, collaboration, and impact. By attracting top talent and fostering the right environment, we empower our teams to grow and deliver meaningful value to healthcare innovation.

### Why Join Elmea Consulting?

Joining **Elmea Consulting**, a brand of **Taleo Consulting**, means becoming part of an international and dynamic team. We offer real career growth, continuous learning, and the opportunity to work on high-impact healthcare projects.

If you're ready to grow with a firm that values excellence and collaboration, **send us your CV.**
