

Domain Architect - Asset Management

Location: Brussels, Belgium

Are you ready to take your career to the next level?

Do you thrive in environments that challenge and inspire you?

Would you like to grow within a team that values both excellence and enjoyment at work?

ABOUT ELMEA CONSULTING

Elmea Consulting, a brand of Taleo Consulting, is a life sciences consulting firm supporting healthcare companies from development to distribution.

DEVELOPMENT

From proof-of-concept to licensing, we guide our clients through each stage of development, ensuring efficient, science-driven, and regulatory-compliant pathways.

PRODUCTION

We help healthcare organizations accelerate market access while maintaining the highest standards of quality, safety, and regulatory compliance.

What Will You Do?

At **Elmea Consulting**, we believe that advancing healthcare starts with **investing in people**. When our consultants grow, feel empowered, and are supported, they can make a real impact for our clients and, ultimately, for patients.

Our teams are made up of curious, committed, and passionate professionals who thrive in a collaborative environment. By developing their expertise and careers, they actively contribute to the success of healthcare and life sciences organizations at every stage of innovation.

Our success is built on the **talent, collaboration, and commitment** of our people and we're now looking for a **Domain Architect - Asset Management** to join our journey.

We are looking for a Domain Architect specialised in Asset Management to join the IT Architecture team of one of our clients, a key player in the Belgian and European energy sector. Your mission is to ensure the Asset domain's IT landscape is coherent, secure, and future-proof, enabling safe and reliable grid operations.

- Translate business capabilities into actionable IT roadmaps and detailed IT Blueprints
- Define and enforce domain-specific architecture principles and standards
- Present and defend architectural designs before the Architecture Review Board (ARB)
- Maintain the Asset IT application and platform portfolio in the Enterprise Architecture Repository
- Conduct portfolio assessments (Gartner TIME, 6R) and identify opportunities for application reuse
- Perform trade-off analyses (cost, risk, complexity) to support executive decision-making
- Govern asset data models, integration patterns, and data ownership with Data and Solution Architects
- Ensure security, resilience, and compliance requirements are embedded in domain architectures

Required Profile

- Proven experience as an IT Domain or Enterprise Architect in a complex, regulated environment
- Strong knowledge of enterprise architecture frameworks (TOGAF, Archimate or equivalent)
- Experience with asset management systems and operational technology (OT/IT convergence) is a plus
- Excellent communication skills - ability to engage both C-suite stakeholders and engineering teams
- Fluent in English; French and/or Dutch is a plus

Our Vision at Elmea Consulting

We aim to build a leading healthcare and life sciences consulting firm driven by expertise, collaboration, and impact. By attracting top talent and fostering the right environment, we empower our teams to grow and deliver meaningful value to healthcare innovation.

Why Join Elmea Consulting?

Joining **Elmea Consulting**, a brand of **Taleo Consulting**, means becoming part of an international and dynamic team. We offer real career growth, continuous learning, and the opportunity to work on high-impact healthcare projects.

If you're ready to grow with a firm that values excellence and collaboration, **send us your CV.**
