

# PLM Support Engineer (Contractor) – TeamCenter

**Location :** Louvain-la-Neuve, Belgium

**Are you ready to take your career to the next level?**

**Do you thrive in environments that challenge and inspire you?**

**Would you like to grow within a team that values both excellence and enjoyment at work?**

## ABOUT ELMEA CONSULTING

Elmea Consulting, a brand of Taleo Consulting, is a life sciences consulting firm supporting healthcare companies from development to distribution.

## DEVELOPMENT

From proof-of-concept to licensing, we guide our clients through each stage of development, ensuring efficient, science-driven, and regulatory-compliant pathways.

## PRODUCTION

We help healthcare organizations accelerate market access while maintaining the highest standards of quality, safety, and regulatory compliance.

## What Will You Do?

At **Elmea Consulting**, we believe that advancing healthcare starts with **investing in people**. When our consultants grow, feel empowered, and are supported, they can make a real impact for our clients and, ultimately, for patients.

Our teams are made up of curious, committed, and passionate professionals who thrive in a collaborative environment. By developing their expertise and careers, they actively contribute to the success of healthcare and life sciences organizations at every stage of innovation.

Our success is built on the **talent, collaboration, and commitment** of our people and we're now looking for a **PLM Support Engineer** to join our journey.

## Mission

As a PLM Support Engineer, you will join the PT Clinical Engineering team at our client IBA and work closely with engineers. Your mission will be to provide first line support to the teams with TeamCenter activities (Product Lifecycle Management tools) and to support the PLM Key User in his/her activities across different product lines.

## Challenges we trust you with

- Be the first line support for PLM needs and support across the engineering teams.
- Support the Key User in the configuration of the PLM for different product lines.

## You have:

- Technical common sense.
- Experience in Product Lifecycle Management tools (TeamCenter, Enovia, SAP).
- Good electromechanical feeling.
- Field experience with industrial machine building.
- Knowledge in electromechanical drawing standards.
- FR/EN fluency.

## And you also are:

- Good communication with people inside the team and outside.
- Sense of precise and complete work.
- Proactive and autonomous in day-to-day support.
- Comfortable working closely with engineers on the ground.

## Our Vision at Elmea Consulting

We aim to build a leading healthcare and life sciences consulting firm driven by expertise, collaboration, and impact. By attracting top talent and fostering the right environment, we empower our teams to grow and deliver meaningful value to healthcare innovation.

## Why Join Elmea Consulting?

Joining **Elmea Consulting**, a brand of **Taleo Consulting**, means becoming part of an international and dynamic team. We offer real career growth, continuous learning, and the opportunity to work on high-impact healthcare projects.

If you're ready to grow with a firm that values excellence and collaboration, **send us your CV.**
